Skills

- Python,Java,C
- HTML,CSS,Javascript,NodeJs, ExpressJs,Ejs,MongoDB
- Tools: Replit,GitHub

Familiar with:
- Data Science
- Web Development
- Machine Learning

Certifications

- Python For Data Science from Cognitive Class, IBM
- Problem Solving by Hackerrank

Actively Participated in:
- IDEA club
- 24 hours WEB Hackathon

Experience

ACADEMOR
Web Development Intern
May 2023-July 2023

Created a web-based weather forecasting application that predicts weather conditions for the next 7 days using Api's and provides a user-friendly interface to access weather information. Utilized web technologies to achieve seamless functionality and intuitive design.

Projects

7 Days Forecasting Weather app | Web Technologies
- Help users to access accurate weather information for the next 7days

Fake news Detection | Data Science
- Platform for detecting fake news through social media and Online articles .

Education

Vishnu Institute Of Technology
BTech-Information Technology
2021 - 2025

Vidyavikas Junior College
Intermediate in MPC
2019-2021
Percentage:97

Strengths

- **Fast Learning**
- **Problem Solving**
- **Communication Skills**
- **Logical Thinking**

Languages

- **English**
- **Telugu**
- **Hindi**
